Skills

- **Programming Languages:** Java, JavaScript
- **Libraries/Frameworks:** React, Bootstrap, Hibernate, Spring, Spring Boot
- **Tools/Platforms:** Visual Studio Code, Eclipse, Git
- **Databases:** MySQL

Projects

Ebook-Shelf | Link [Html, CSS3, JavaScript, React, Spring, Springboot, MySql](#)

Ebook-Shelf aims to set up virtual bookshop that also have library facility and it will allow users to purchase rent and/or lend eBooks.

All content is in digital form and hence delivered instantly by adding products (either purchased, lent, or rented) in users account. User can access these products from My Shelf and read eBooks or play audiobooks or videos.

Purchased products will remain in Myshelf forever, however all rented products are deleted after validity period.

Prediction of TEC variations | Link

[Html, CSS, JavaScript, Bootstrap, Python, Flask](#)

This project focuses on predicting the TEC variations.

It uses the parameters in the region, calculate them and shows a graphical representation.

Certifications

Android Development - Internshala
